STAT

I hope that my tardiness in responding to your very gracious note of late February does not mean I'll miss you before you fly away from Principia for good. I appreciate your thoughtfulness in writing. I felt such a warmth from all of you in the audience at Principia. I also particularly enjoyed the Tuesday evening service before the lecture.

I'm enclosing a booklet on the CIA which I thought you might like to look at. I know you'll find the right avenue for expression of your talents be it in the Government or elsewhere.

Again, with many thanks and congratulations as you graduate from Principia.

Yours,

STANSFIELD TURNER
